

Mohammed Affan Zia

Data Science Enthusiast | MCA Graduate | Python & Machine Learning

✉ affaanzia642@gmail.com ☎ +91 9886661502 📍 Bengaluru, Karnataka

Professional Summary

Motivated MCA graduate with Data Science training and hands-on experience in data analysis, machine learning, and data visualization. Skilled in Python, SQL, Pandas, NumPy, Scikit-learn, and Power BI. Strong analytical mindset and problem-solving abilities with a passion for extracting insights from data and building predictive models. Seeking an entry-level Data Scientist or Data Analyst role to contribute to data-driven decision-making and professional growth.

Education

Master of Computer Applications (MCA) , Karnatak University, Dharwad CGPA: 6.5	2023 – 2025 Dharwad, Karnataka
Bachelor of Computer Application (BCA) , Karnatak Science College CGPA: 6.5	2021 – 2023 Dharwad, Karnataka
Pre University College Science (PUC) , Prism PU Science College 62.2%	2019 – 2020 Dharwad, Karnataka
SSLC , Pavan English School 69%	2018 – 2018 Dharwad, Karnataka

Technical Skills

Technical Skills — Python | SQL | Statistics & Probability | Machine Learning | Data Analysis | Data Cleaning & Preprocessing | Exploratory Data Analysis (EDA) | Feature Engineering | Predictive Modeling | Data Visualization

Libraries & Frameworks — Pandas | NumPy | Scikit-learn | Matplotlib | Seaborn

Databases — MySQL | PostgreSQL

Data Science & Machine Learning — Jupyter Notebook | Google Colab | Power BI | Microsoft Excel | Git & GitHub

Core Concepts — DBMS, Data Structures (Basic), Statistics (Basic)

Soft Skills — Analytical Thinking | Problem Solving | Critical Thinking | Communication Skills | Attention to Detail | Team Collaboration | Time Management

Projects

IPL Analytics Dashboard Power BI, SQL, Excel - Built an interactive dashboard to analyze IPL match and player data. - Cleaned and transformed data using SQL and Power Query. - Created KPIs for team performance, wins, and player statistics. - Developed interactive charts and season-wise filters using Power BI. - Generated insights on top teams, players, and match trends.	04/2026 – 06/2026
Message & Email Spam Detection System , Python, Flask, scikit-learn, NLTK, Pandas - Preprocessed and cleaned dataset including tokenization, stop word removal, and stemming. - Built and deployed ML model using Multinomial Naive Bayes for spam/ham classification. - Designed a web interface to test input messages in real time. - Ensured accurate output prediction by reviewing input-output behavior.	03/2025 – 06/2025
Laptop and Desktop Rental Management System , Technologies: PHP, MySQL, WAMP - Developed a web-based system to manage rental devices. - Handled user registration and database management. - Performed system testing and debugging to ensure smooth operation. - Improved troubleshooting and problem-solving skills through real-time testing.	11/2022 – 04/2023

Certificates

Web Development – Internz Learn

- Learned full-stack web development, including front-end, back-end, database integration, and REST APIs.
- Gained hands-on experience in application deployment and cloud computing fundamentals.

Data Analytics and Data Science with GenAI

- Gained hands-on experience in Data Analytics, Machine Learning, Data Visualization, and Statistical Analysis using Python, SQL, Excel, and Power BI.
- Applied Generative AI techniques for data analysis, predictive modeling, and automation of insights generation.
